BY The Honorable

John C Coughenour

United States of America

v

Michael A. Wood

NO. CR20-092-JCC

Answer to the  
government's response

(Help articulate claim)

your Honor, I really need the appointment of counsel. The government continues to admit disputable facts in their responses. There is undisputable medical conditions & other factors that support compassionate release. I know my history weighs against release, but I believe that the fact my current conditions due to denial & delayed care & 3 yrs of pain, suffering & irreparable damage ATLAST Balances the harms & warrant home confinement ATLAST.

There can be no further Earth given to the BOP to provide care. They have been saying for 3 yrs now that I'm receiving care or am being seen for my conditions. But as can be seen in my previously submitted exhibits "no" treatment has been given, because the BOP can't seem to get me to over 12 appointments to see Neurologist, Optometrist & physical therapy over the last 3 yrs. How can they say the next 3 yrs will be different. They make it sound as if I was late to my appointments these

are all outside care facilities. They can't even pay for my medical costs & got mailed my neurologist Bill. Because they didn't pay it.

Your Honor, there are also minor inaccuracies id like to address in the governments / proleations responses

1) The fact of how & when I was injured, I do not understand why the government continues to contest my claims & make it a point to say the DPT acknowledge my claim. BC they are not conforming with the US ATTORNEY who is representing my civil claim. IT would be a conflict but ALSO almost negligent if they didn't.

The 1<sup>st</sup> 5 min audio taken by the Detectives is "clearly" state my shoulder was injured, where the audio was stopped to assess my condition. The US Marshals Audio Video & photo evidence disappeared. This is all easily resolvable Ask the Mason County Sheriff who found me if I said I was injured & if that is why they used a dog leash to pull me up the cliff resulting in my disabled shoulder that now requires surgery for delayed care. Ask the Arresting Marshals under oath if I fell off the cliff & did I ever stay I was injured? Ask the marshal that transported me to Seatac if he told the nurse I had been hurt? which brings up #2

2) The Marshal informed the intake nurse I had suffered a head injury & loss consciousness & suffered other injury

This is clearly in the intake report that I provided in the previous exhibits

3) Probation made some mistakes about my family my 23 yr old son that doesn't want nothing to do with me works & lives at my DADS. My 24 yr old son was in fact living with me & my girlfriend at her apartment & on the property where I was arrested, you can ask Tamish Gilbert my probation officer at the time he does have Schizophrenia & is now homeless in & out of Kitsap County Jail for mental illness & after my arrest he stayed with my & girlfriend off & on till her house burned down few months ago. I DO have a relationship with my 13 yr old son & was staying with him & my ex-wife till my violation this can be confirmed with my probation officer Matthew Dennis my 24 yr old son I don't care if after 18 yrs I wasn't the father according to DNA. I am his DAD on his birth certificate his name is Kane Michael Wood we need each other right now Rn physically & mentally disabled & he has mental illnesses we balance each other

I hate to nit pick these small issues but the learned when I don't the corrections get used against me to discredit what Tim saying

I have sent the courts a more viable release plan & address. Me & my father had a misunderstanding or there was a change of heart. I have a real hard time

with my speech & I get frustrated by not being able to express what I'm trying to say so I don't use the phone but once every 2 months. But my address I provided is good address with care givers.

I don't understand what objective would be achieved at this point by going to a medical facility. I want receive actual care at home. Detention is not be such a burden on tax payers. No matter what my condition is expected to get worse & the people willing to take custody & care of me would be better suited to take me now & begin giving care & believe home detention would still support respect for the law.

It's more than just my disability/mobility that prevents me from reoffending or being the person I was. I rely on a caregiver to do anything & can't wheel myself due to my shoulder, I can barely talk, my vision impairment is crazy, I'm in cognitive decline. The warden knows this through interaction that's why he put it in his appeal for release.

I pray that you see my struggle for 3 yrs to get care you honor & apologize if this is to long or if I wasn't supposed to respond.

Mihail wool 402-24

## My Apology

I can't say anything that can excuse my actions & the life i've lived. I know that in supporting my own selfish addiction i've caused destruction & chaos in my community. I've left my children fatherless for my elderly parents to raise, sacrificing their retirement so they had a home. My current condition is a reflection of the destruction i have left behind me. I know what happened to me on the day of my arrest & since my incarceration. It has changed my whole outlook on life & this world. My respect for life, God, family & community has grown to a whole new level. I was taking courses through collage programs in hopes of becoming a counselor. But the truth is i have a long road of recovery myself before i can help others. But maybe my story & condition can open eyes of others before they make the same choices i did. I prayed your Honor for this chance & IT was answered thus so far when i received the only compassionate release approval ever seen at Victorville by a warden. I know this is only step one, but why would God answer only half my prayer. I've prayed for home detention, to see my DAD & mom again, my sons forgiveness every morning, afternoon & night. Although my disabilities & medical conditions are a major deterrent of proceeding the biggest deterrent is my willingness

I want to need to try to enjoy as much life as I can. My medical records don't contain the insight and personal opinions made by the C/D & P/T who told me that my condition will probably progress & I won't ever recover complete mobility. This has been a mental strain like nothing I've ever faced. I've always had my health & love for outdoors & activities, playing with my dog. The truth all those days & my C/D ways are a thing of the past. I apologize to any & everyone I have ever hurt or wronged & Beg & pray for forgiveness.

I pray & pray your Honor will let me finish my sentence on Home Confinement which would equal more than 16 if I remain incarcerated where after FST, SCA & RDAP which will knock 3 yrs off my sentence making me eligible for release in February 2026 less than 2 yrs.

Your Honor my records don't portray the reality of my condition & decline. There is something so much more going on I'm losing the grasp of reality. I want to see my parents children & dog before its to late I pose no risk or threat to no one like this & I want get better. Everything relies on proper care to slow the progression something I want get in the BOP. I don't want some stranger helping me get

Dressed Shower & eating. Right now I have a real good friend willing to take care of me for the rest of my life. I am so scared that if I remain in here to finish my time something might change to where I'll have to reside in a convalescent home. I'm so scared. even if she is still there how bad will it be will I be 100% reliant on her? right now I can do a little bit to help

Thank you your Honor

God's Great  
naked & came from my mother's womb  
and naked I will depart  
The Lord has given  
and the Lord has taken away  
may the name of the Lord be PRAISED  
AMEN
